**Aim:** We are doing Data visualisation using Tableau and making a dashboard for House sale analysis

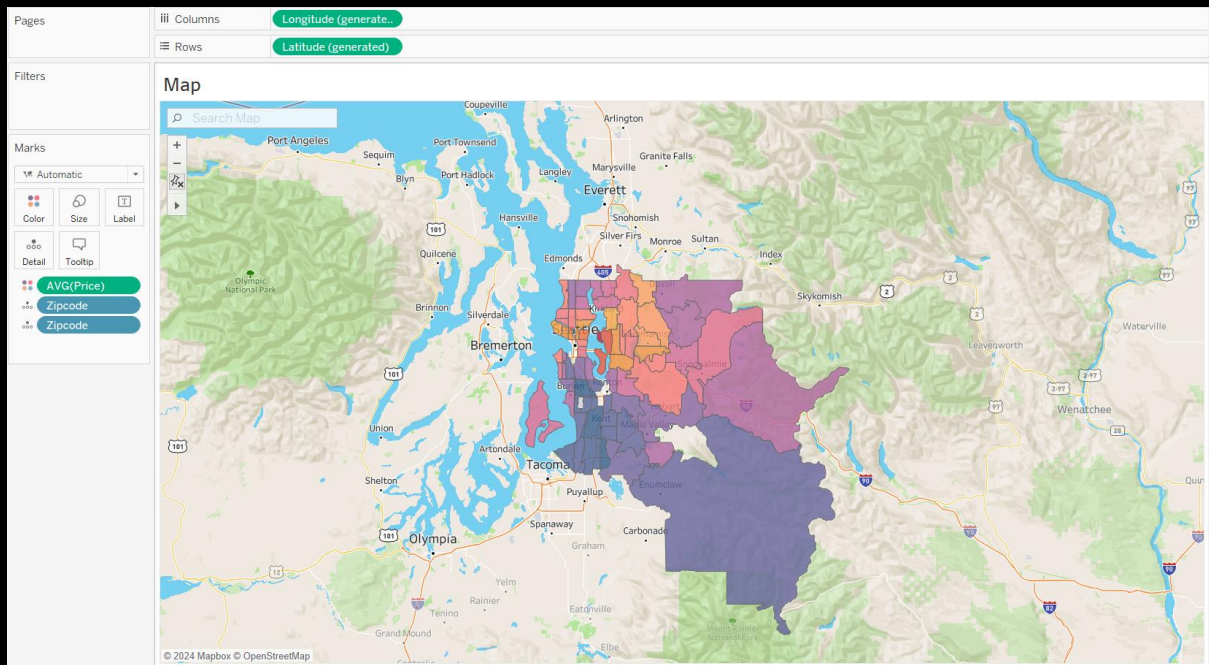

### **Sheet 1:**

This is the line graph for House price comparison.

### **Sheet 2:**

We have used map to show the density of house prices.

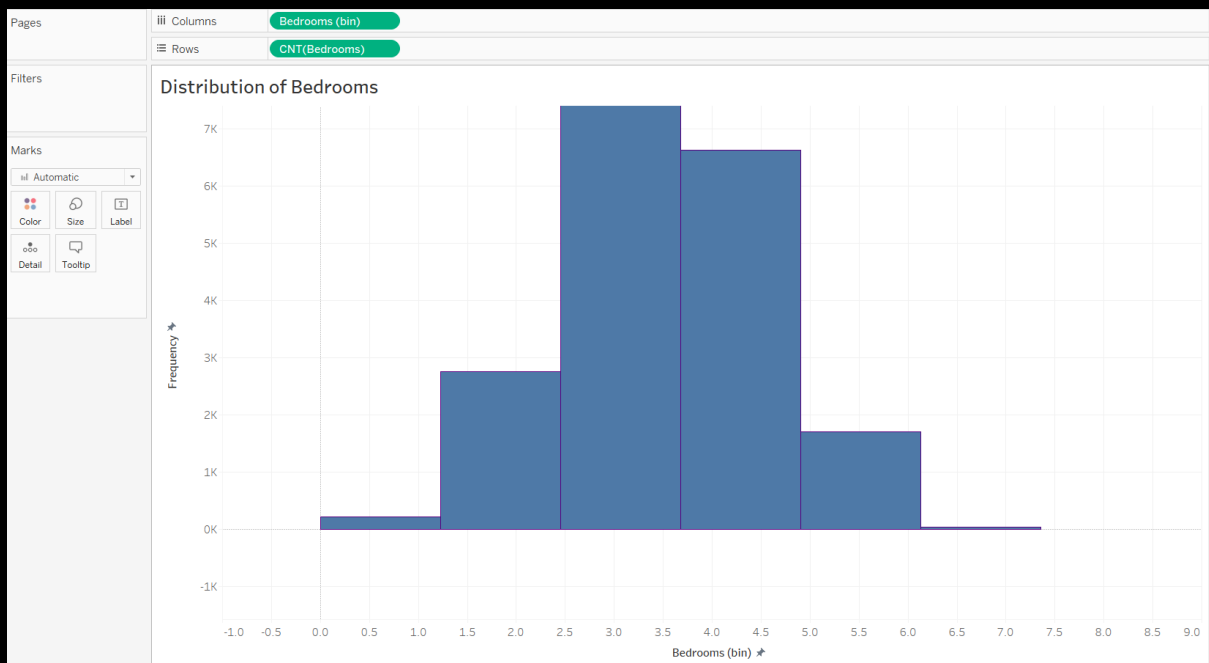

### Sheet 3:

This is a graph which shows the price of house vs number of houses bought

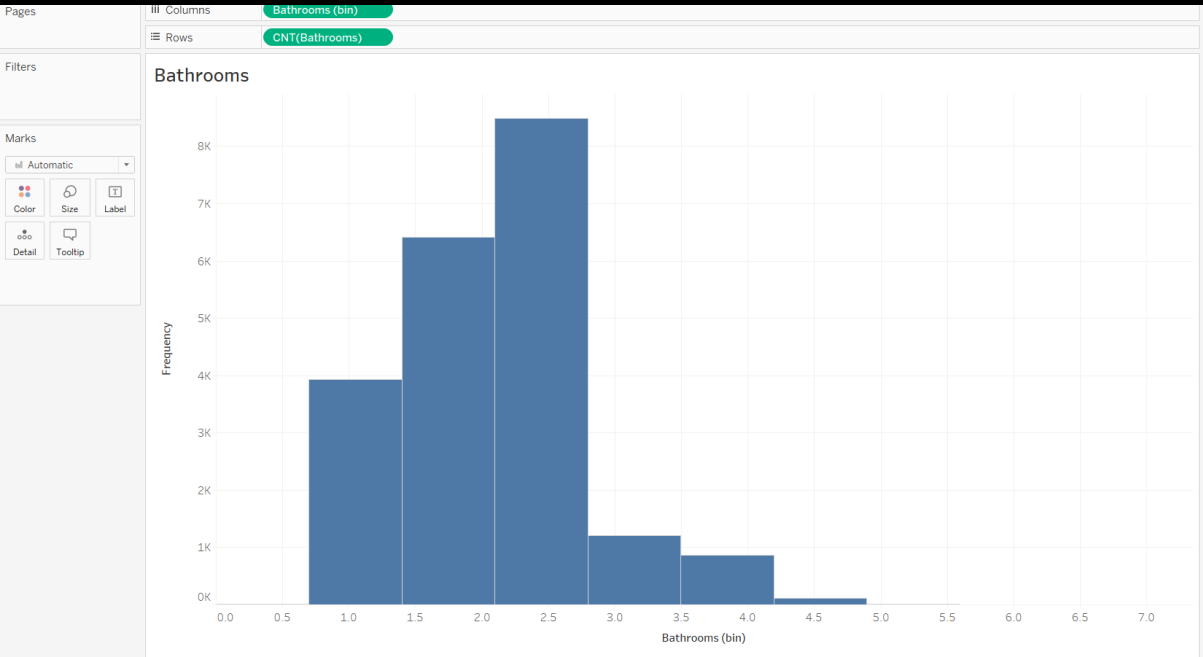

### Sheet 4:

This shows the Number of Bedrooms per house sold.

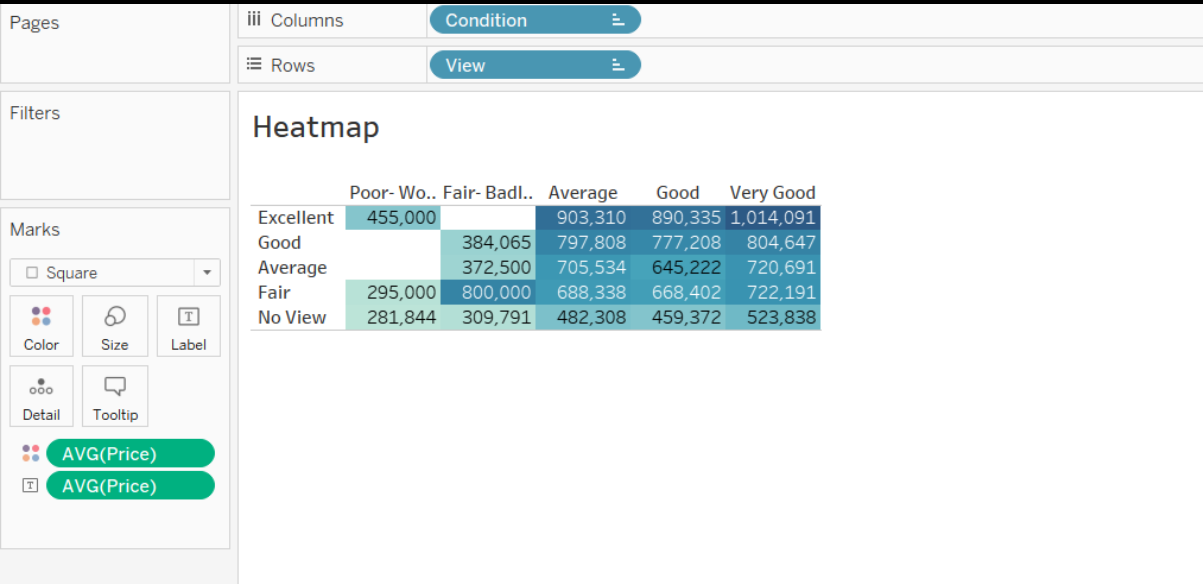

Sheet 5:

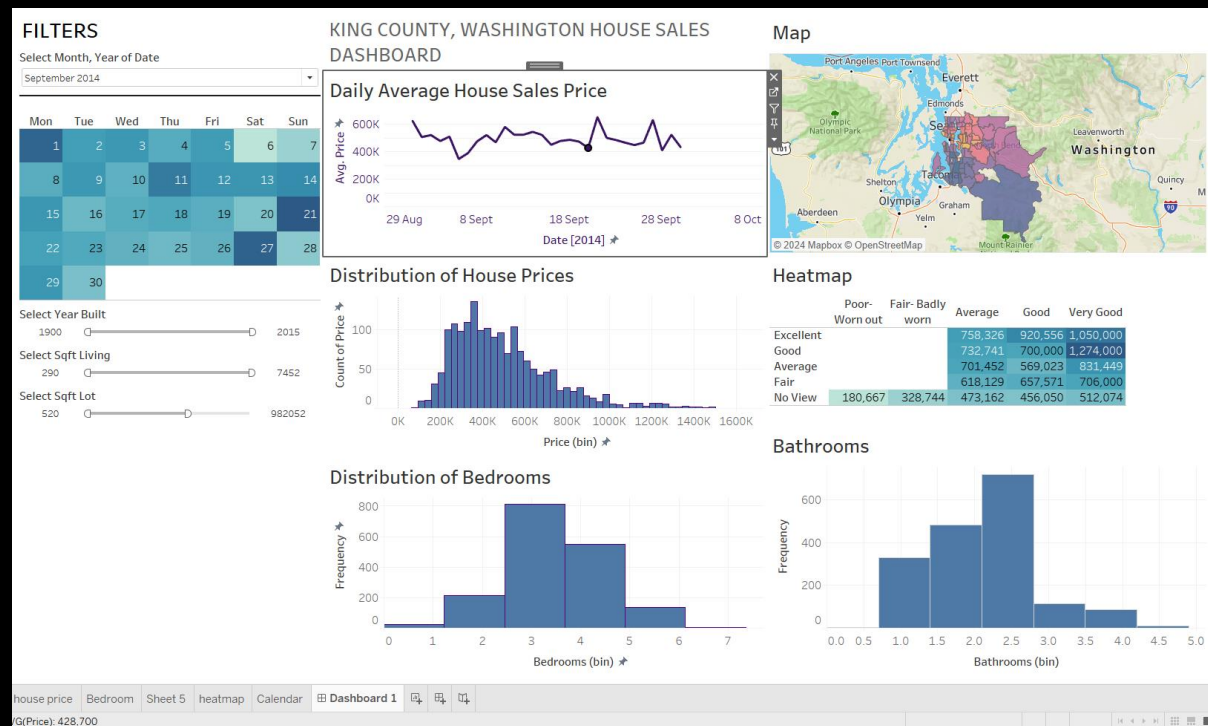

This shows the Number of Bathrooms per house sold.

This is the Heatmap which will be deployed.

## Main Dashboard

**This is the main dashboard which can be used to analysis purpose and to gain insights.**

**We have also applied and a calendar for better visualisation.**
